## Plant protection products log – September 2025

**Not for external distribution. Please do not forward this document.**

Actives and issues of particular interest to the sector are **highlighted**.

Any member wishing to raise a topic or issue, please contact a member of the secretariat.

### WTO Technical Barriers to Trade (TBT) notifications

**UK**  
Proposed GB MRLs for dinotefuran amending the GB MRL Statutory Register (issued: 17/09/25. Deadline: 16/11/25)  
LINK: <https://eping.wto.org/en/Search/Index?countryIds=C826&distributionDateFrom=2025-09-01&distributionDateTo=2025-09-23&viewData=G%2FSPS%2FN%2FGBR%2F108>

### EU pesticides legislative developments

**[Commission Implementing Regulation \(EU\) 2025/1879 of 16 September 2025 renewing the approval of the low-risk active substance rape seed oil in accordance with Regulation \(EC\) No 1107/2009 of the European Parliament and of the Council, and amending Commission Implementing Regulation \(EU\) No 540/2011](#)**

### EU Standing Committee (PAFF) meetings

#### **Pesticide Residues 2-3/10/25**

The agenda can be viewed [here](#). Minutes are not yet available. Items of potential interest include:

#### **Section B Draft(s) presented for an opinion**

**B.01** Exchange of views and possible opinion of the Committee on a draft Commission Regulation (EU) .../... amending Annex II to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for **acetamiprid**, aclonifen, deltamethrin, oxathiapiprolin and potassium phosphonates in or on certain products (PLAN/2025/1931) Legal Basis: Regulation (EC) No 396/2005 - Article 14(1)(a) Procedure: Regulatory procedure with scrutiny

### **Section C Draft(s) presented for discussion**

**C.03** Exchange of views of the Committee on a draft Commission Regulation (EU) amending Annexes II, III and V to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for 1,4-dimethylnaphthalene, chlormequat, metribuzin, metribuzin-desamino-diketo (metribuzin-DADK), terbuthylazine and triclopyr in or on certain products (PLAN/2025/1086) Legal Basis: Regulation (EC) No 396/2005 - Articles 14(1)(a), 18(1) and 49(2) Procedure: Regulatory procedure with scrutiny

### **Pesticides Legislation 1-3/10/25**

The agenda can be viewed [here](#). Minutes are not yet available. Items of potential interest include:

### **Section A Information and/or discussion**

#### **A.04 Exchange of views on EFSA conclusions/EFSA scientific reports:**

- Renewal of approval

5. Clomazone

#### **A.05 Draft Review/Renewal Reports for discussion:**

- New active substances / Amendment of conditions of approval

3. Maleic hydrazide

- Renewal of approval

5. Pelargonic acid

6. Sulfur

18. Fludioxonil

21. Fosetyl

### **Section B Draft(s) presented for an opinion**

**B.02** Exchange of views and possible opinion of the Committee on a draft Commission Implementing Regulation (EU) amending Implementing Regulation (EU) No 540/2011 as regards the extension of the approval periods of the active substances aluminium silicate, difenoconazole, diflufenican, disodium phosphonate, extract from tea tree, flurochloridone, indolylbutyric acid, maltodextrin, phosphane, plant oils/clove oil, plant oils/spear mint oil, potassium phosphonates and triclopyr (PLAN/2025/2120) Legal Basis: Regulation (EC) No 1107/2009 - Article 17 Procedure: Examination procedure

### **Section C Draft(s) presented for discussion**

**C.06** Exchange of views of the Committee on a draft Commission Implementing Regulation (EU) concerning the non-renewal of the approval of the active substance flutolanil, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council, and amending Commission Implementing Regulation (EU) No 540/2011 and Commission Implementing Regulation (EU) 2015/408 (Draft Renewal Report PLAN/2024/2353 RR) (PLAN/2024/2353) Legal Basis: Regulation (EC) No 1107/2009 - Article 20(1) and 78(2) Procedure: Examination procedure

### **Pesticides Legislation 9-10/07/25**

The agenda can be viewed [here](#). Minutes are available [here](#). Items of interest:

### **Section A Information and/or discussion**

#### **A.02 Applications and withdrawals, in particular basic substances**

##### **1. Sodium chloride - withdrawal of application for extension of use**

COM informed MS about the withdrawal of an application for an extension of use of sodium chloride as a basic substance. The application was for the use of sodium chloride as a desiccant on potato crops, and it was at the stage of evaluation by EFSA. A withdrawal of an application for approval of a basic substance is without prejudice to a new application for the same substance by the same or other applicants.

**A.04 Exchange of views on EFSA conclusions/EFSA scientific reports:**

- *Renewal of approval*

**5. Clomazone**

COM informed that it is still waiting for EFSA to publish its revised Conclusion on clomazone.

**A.05 Draft Review/Renewal Reports for discussion:**

- *Renewal of approval*

**3. Pelargonic acid**

COM explained that the main issue related to the renewal of the approval of pelargonic acid is whether it should be renewed as a low-risk active substance or not. The updated EFSA Conclusion noted that the in-field risks to non-target arthropods from the representative use of product MON74134 depends on the significant limitation of the treated area. In addition, there are high risks for non-target organisms for all other uses that will require mitigation. Such findings would preclude the renewal of pelargonic acid as a low-risk active substance and the draft Renewal Report is under internal review and validation and will be presented once it has been completed. MS were invited to send comments by 31/07/25 and to indicate if they consider that pelargonic acid should be renewed as low-risk active substance or not.

**4. Sulfur**

COM explained that three MS sent comments after the meeting in May concerning the effects of sulfur on *Trichogramma*. None of the 3 MS would support to put the observed effects in balance with the absence of effects observed on two species which are now recommended by the ESCORT 2 Guidance Document. COM explained a proposed way forward including a review of the scientific basis for abandoning *Trichogramma astestspecies* and involving potentially EFSA in a “comparative assessment”. To be followed up at the next meeting.

**17. Fludioxonil**

EFSA concluded that fludioxonil is an endocrine disruptor for humans and for nontarget organisms and the applicant had not submitted any information to invoke legally possible derogations within the statutory limits. In addition, the risk assessment for fludioxonil could not be finalised with respect to the risks for consumers and groundwater contamination. COM noted that such findings normally would preclude the approval of an active substance and informed that the draft Renewal Report is under internal review and validation and will be presented once it has been completed. One MS informed that it had no final position on the renewal but would send detailed comments. Another MS noted that if the approval for fludioxonil is not renewed a sufficiently long grace period should be given considering the importance of that active substance. A 3<sup>rd</sup> MS inquired why the data on the applicability of the derogation under Article 4(7) of Regulation (EC) No 1107/2009 could not be evaluated. COM explained that the said article stipulates that the information should be part of the application, and in this case had been submitted after the statutory deadline. MS were invited to send comments by 31/07/25.

**Section B Draft(s) presented for an opinion**

**B.03 Exchange of views and possible opinion of the Committee on a draft Commission Implementing Regulation (EU) renewing the approval of the low-risk active substance rape seed oil in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council, and amending Commission Implementing Regulation (EU) No 540/2011 (Draft Renewal Report PLAN/2022/976 RR) (PLAN/2022/976).**

**Vote taken:** Favourable opinion

**Section C Draft(s) presented for discussion**

**C.05 Exchange of views of the Committee on a draft Commission Implementing Regulation (EU) concerning the non-renewal of the approval of the active substance flutolanil, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council, and amending Commission Implementing**

Regulation (EU) No 540/2011 and Commission Implementing Regulation (EU) 2015/408 (Draft Renewal Report PLAN/2024/2353 RR)

**COM informed that its proposal is awaiting approval from the hierarchy and once this step is concluded, the following procedural steps, including the TBT notification, will start. COM invited MS to provide reasoned position on the proposal and requested comments by 31/08/25.**

## EFSA opinions, reviews and other EU developments

### **EFSA reports**

Peer review of the pesticide risk assessment for the active substance pinoxaden in light of confirmatory data submitted (Issued: 08/09/25)

LINK: <https://www.efsa.europa.eu/en/efsajournal/pub/9622>

### **Consultations launched this month, or which were launched previously but which are still live.**

Application for the approval of the New Active Substance Ledprona (Issued: 26/09/25. Deadline: 17/10/25)

LINK: <https://connect.efsa.europa.eu/RM/s/consultations/publicconsultation2/a0ITk000005fdH3/pc1629>

Application dossier for the setting of a new maximum residue level (MRL) for Propamocarb in strawberry and poppy seed (Issued: 19/09/25. Deadline: 24/10/25)

#### ***Expert Committee on pesticide residues in food to be wound down***

*The government has reviewed the arrangements for obtaining expert advice on the pesticide residues in food monitoring programme.*

*It has been decided that arrangements that involve obtaining advice from the Expert Committee on Pesticide Residues in food are no longer part of the best model. As a result the committee will be wound down.*

*All other existing arrangements will remain in place to ensure that both the programme and assessment of results are technically and scientifically robust, transparent and meet professional standards.*

*Expert advice, when needed, will be sought from the Expert Committee on Pesticides and other sources.*

*The committee will formally close in May 2026, following conclusion of consideration of the findings for the final quarter of the 2025 monitoring programme.*

*All results of the residue monitoring programme and the annual Pesticides Residues in Food report will continue to be published on GOV.UK.*

*Find out more information on GOV.UK: [Expert committee on pesticide residues in food](#)*

#### ***HSE has updated guidance on the Article 53 emergency authorisation process***

***The new guidance has now been published and must be used for all future Article 53 applications.***

*Article 53 of the GB Plant Protection Product Regulations permits, under special circumstances, the limited and controlled use of a plant protection product that normally cannot be used where the danger cannot be controlled by any other reasonable means.*

*Key changes to the guidance include:*

- *additional advice on the information that applicants will need to provide to support their applications for emergency authorisation*
- *additional detail on how the benefits of an emergency authorisation are weighed against the risks to people, animals and the environment*

Visit our website to view the [updated Article 53 emergency authorisation guidance](#)

### ***Expiry of ethylene and citronella oil approvals in GB***

***The approvals of the following active substances: ethylene and plant oil - citronella oil were not supported for renewal in GB and expired on 31 August 2025.***

The statutory [approvals register](#) has been updated to reflect these changes.

The expiry of these approvals will impact PPPs containing the active substances listed above. Grace periods have been set allowing:

- *6 months for sale and distribution (28 February 2026)*
- *a further 12 months for storage, disposal and use of existing stocks (28 February 2027)*

Withdrawal Notices will be updated on the pesticides register.

The expiry of these approvals has no immediate impact on the GB maximum residue levels (GB MRLs) which will remain in force unless HSE decides to take specific regulatory action; no such action is currently planned, but GB MRLs may be reviewed at any time based on a priority of protecting UK consumers.

For MRLs, please see the [GB MRL Statutory Register](#).

	<b>Big Company Impact</b> Cost Reputation Media	Criteria for defining EDs Candidates for substitution Metribuzin* (H) [EU authorisation expiry 31/10/24. Sale and supply 24/05/25. Grace period 24/12/25] Metaldehyde (M) [EU expiry 31/08/26] Lambda-cyhalothrin* (I) [EU expiry 31/08/26] Cymoxanil (F) [EU expiry 31/08/26]	Fosthiazate (N) [EU expiry 31/01/27] 1,4-DMN (GR) [EU expiry 30/11/27] Mandipropamid* (F) [EU expiry 30/06/29]	Maleic Hydrazide (GR) [EU expiry 31/10/32] Carfentrazone-ethyl (H) [EU expiry 31/07/33]
	<b>Moderate Impact</b> Cost Material availability Working practice	Plant oils/clove oil [EU Expiry 31/01/26] Plant oils/spear mint oil [EU Expiry 31/01/26] Flutolanil (ST) [EU expiry 15/06/26]	Ethylene (GR) [EU expiry 30/11/26] Flonicamid (I) [EU expiry 30/11/26] Imazalil (ST) [EU expiry 31/05/27] Azoxystrobin (F) [EU expiry 31/05/27]	Ferric phosphate (M) [EU expiry 31/12/30] Thiabendazole* (ST) [EU expiry 31/03/32] Glyphosate (H) [EU Expiry 15/12/33]
<b>Small Impact</b> Cost Materials Change	Flufenacet (H) [EU authorisation expiry 10/06/25. Grace period 10/12/26] Difenoconazole* (F) [EU expiry 15/03/26] Fluazinam* (F) [EU expiry 15/04/26] Esfenvalerate (I) [EU expiry 31/05/26] Fluopicolide (F) [EU expiry 31/08/26]	Prosulfocarb (H) [EU expiry 31/01/27] Propamocarb (F) [EU expiry 31/01/27] Rimsulfuron (H) [EU expiry 15/08/28]		

Current issue      Changed priority      Identified as a potential high profile media issue      \*Potential Endocrine disruptor  
H – Herbicide, F – Fungicide, GR- Growth Regulator, I – Insecticide, ST – Seed Treatment, N – Nematicide, D – Desiccant, M – Molluscicides

**Secondary Actives List: Actives which may become important if there are loses from priority list**

Secondary List of Actives	EU Authorisation Expiry Date	GB Authorisation Expiry Date	MRL mg/kg
Acetamiprid (I)	28/02/2033	28/02/2033	0.01* (Limit of Determination)
Boscalid (F)	15/04/2026	31/07/2029	2.0
Clomazone (H)	30/09/2026	31/10/2029	0.01* (Limit of Determination)
Fludioxonil (F)	30/09/2025	31/10/2028	5.0
Pyraclostrobin (F) (with boscalid)	Pyraclostrobin 15/09/2026	Pyraclostrobin 31/10/2029	Pyraclostrobin - 0.02* (Limit of Determination)
	Boscalid 15/04/2026	Boscalid 31/07/2029	Boscalid - 2.0
Pyraflufen-ethyl (H)	31/03/2031	31/03/2031	0.02 * (Limit of Determination)
Cycloxydim (H)	31/08/2026	31/05/2031	3.0
Aclonifen (H)	31/10/2026	31/07/2027	0.02 * (Limit of Determination)
Ametoctradin (F)	31/05/2028	31/07/2026	0.05
Amisulbrom (F)	15/09/2025	30/09/2029	0.01
Bentazone (H)	31/10/2027	31/05/2031	0.2
Cyazofamid (F)	31/07/2036	31/07/2029	0.01
Fluxapyroxad (F)	31/05/2025	31/05/2031	0.1

Metobromuron (H)	31/05/2027	31/12/2029	0.01* (Limit of determination, possibility this may be raised to 0.03 following EFSA review)
Oxathiapiprolin (F)	03/03/2027	03/03/2032	0.1
Pendimethalin (H)	15/01/2027	30/11/2028	0.05* (Limit Of Determination)
Propaquizafop (H)	28/02/2027	30/11/2029	0.1
Quizalofop-P-tefuryl (H)	28/02/2027	30/11/2028	0.1
Zoxamide (F)	31/06/2033	31/06/2033	0.02* (Limit of Determination)
